1. Background

Mirae Asset Securities engages in diverse business activities based on the management philosophy, core values, and investment principles of Mirae Asset Financial Group. Through the global allocation of high-quality assets and robust risk management, Mirae Asset Securities is committed to empowering clients and society to create greater wealth and prepare for a comfortable future.

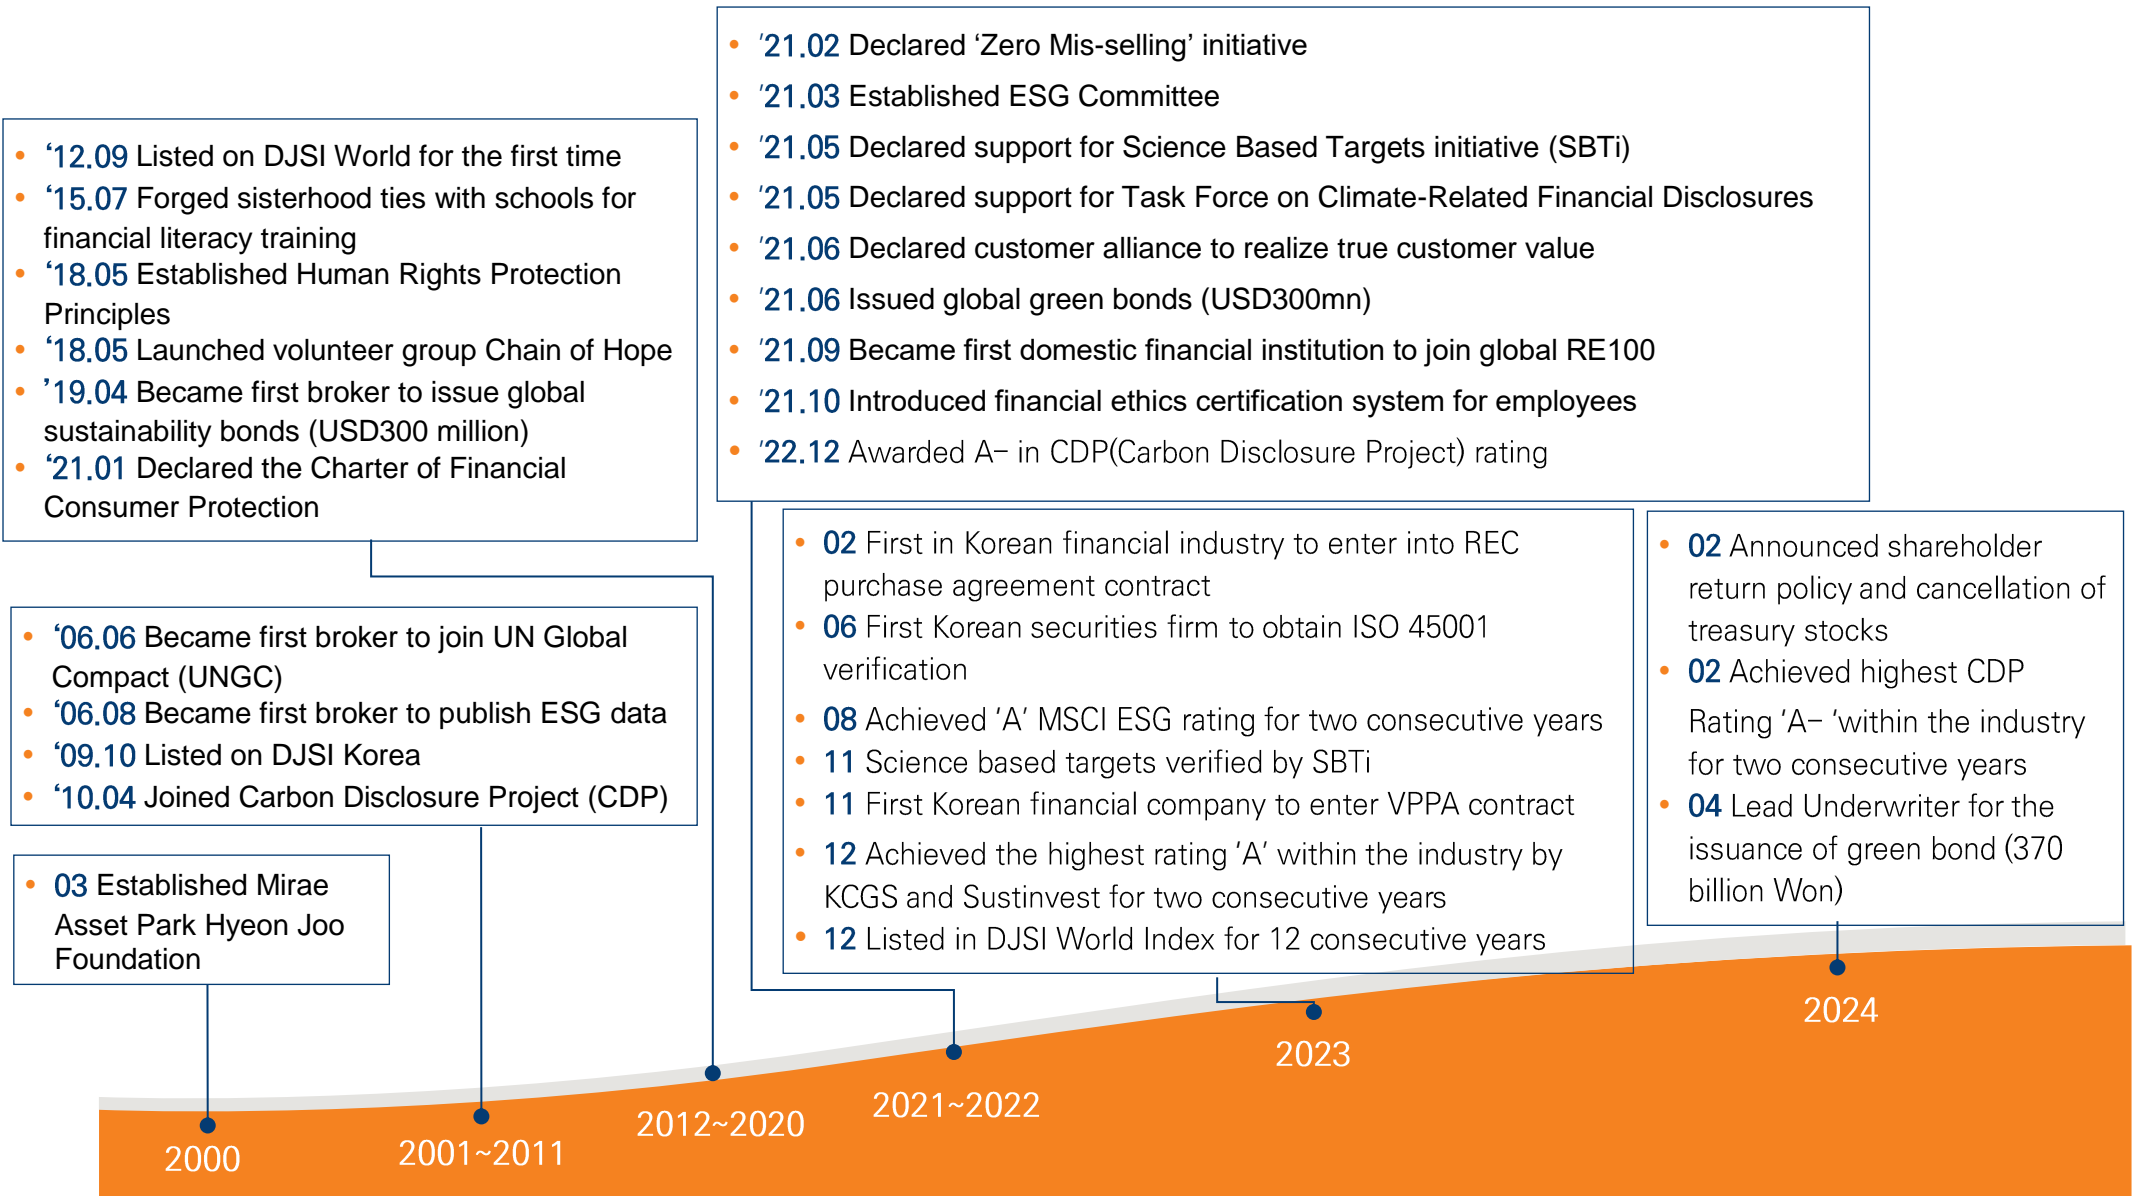

Recognizing the importance of actions that contribute to the achievement of the UN Sustainable Development Goals (UN SDGs), Mirae Asset Securities actively discloses its sustainable finance performance by business segment. Having identified shared growth as a strategic goal early on, Mirae Asset Securities has focused on creating a sustainable future through ESG investments and management, providing growth funding solutions to new growth companies, venture capitals, and innovative SMEs.

In collaboration with the Mirae Asset Park Hyeon Joo Foundation, Mirae Asset Securities offers scholarship and philanthropic programs. Mirae Asset Securities also seeks to close the gap in financial literacy by bringing financial education to underserved communities, including through sisterhood ties with K-12 institutions (elementary, junior high, and high schools). To promote inclusive capitalism and shared growth with local communities, Mirae Asset Securities encourages employee participation in volunteer activities that align with the corporate culture of sharing. In addition, as an owner of professional table tennis teams, Mirae Asset Securities promotes broader public participation in sports.

As the first company in the Korean financial sector to join the global RE100 initiative, Mirae Asset Securities plans to shift to 100 percent renewable energy by 2025, thus demonstrating its commitment to more sustainable operations and the successful transition to a low-carbon economy. By taking preemptive action to address climate change and supporting stakeholders' efforts to achieve carbon neutrality, Mirae Asset Securities endeavors to take a leading role in the renewable energy finance market.

Through the ESG policy framework, Mirae Asset Securities has set a sustainable finance goal for 2025 and a medium/long-term strategic direction for the environment, society, and governance. Mirae Asset Securities will faithfully carry out its role in creating greater value for diverse stakeholders and helping to bring about a more sustainable future for society.

2. Mirae Asset Securities' History of ESG

3. ESG Principles for Responsible Investment (PRI)

Mirae Asset Securities is committed to integrating Mirae Asset Financial Group's investment principles¹⁾ and the following ESG Principles for Responsible Investment (PRI) into the entire decision-making process in which we engage in through investment and asset management.

Principle 1

Mirae Asset Securities will incorporate ESG issues into investment and its decision-making process.

Principle 2

Mirae Asset Securities, as a professional investment body, will faithfully undertake its role in realizing a healthy society through active engagement.

Principle 3

Mirae Asset Securities will proactively seek appropriate ESG disclosures by the entities in which we invest.

Principle 4

Mirae Asset Securities will work to promote acceptance and implementation of the Principles within the financial industry and the capital markets.

Principle 5

Mirae Asset Securities will continue to collaborate with stakeholders to ensure the efficient implementation of the Principles.

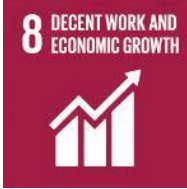

Principle 6

Mirae Asset Securities will proactively disclose our ESG-related information and progress towards the implementation of the Principles.

¹⁾ **Mirae Asset Financial Group's** investment principles are as follows:

1. Mirae Asset identifies sustainable competitiveness of companies.
2. Mirae Asset invests with a long-term perspective.
3. Mirae Asset assesses investment risks with expected return.
4. Mirae Asset values a team-based approach in decision making.

4. Mirae Asset Securities' ESG Framework

| | | | |
|------------------------|--|---|---|
| ESG Management Mission | We are committed to pioneering a sustainable future through investment and asset management. | | |
| 2025 Goal | Reach KRW45 trillion in sustainable finance ²⁾ | | |
| Focus Areas | Governance & Accountability | Climate Engagement | Inclusive Growth |
| Strategic Priorities | Foster more accountable/ethical management | Expand green and low-carbon finance | Expand inclusive finance |
| | Enhance management transparency | Convert to renewable energy | Improve access to financial services |
| | Enhance risk management & identify opportunities | Manage carbon emissions from investment assets | Expand ESG campaigns |
| UN SDGs |  |   |   |

²⁾ 2020 baseline applied; ESG investment, advisory, and underwriting services (cumulative sum), ESG-themed bonds and WM products (outstanding balance)

(1) ESG Management Mission

We are committed to pioneering a sustainable future through investment and asset management.

As set out in its corporate vision³⁾ and management philosophy⁴⁾, Mirae Asset Securities charts a new path through the world of finance as a “Permanent Innovator,” embracing the future with an open mind. Mirae Asset Securities has become a leading investment company in the Korean capital market by constantly pursuing innovation and new challenges to ensure a comfortable life after retirement for clients and create a healthy and happy society.

Based on the belief that investment and asset management can change the world, Mirae Asset Securities faithfully makes socially responsible investments, empowering all stakeholders to pioneer a sustainable future. As part of such efforts, Mirae Asset Securities expands financial product offerings with social and environmental themes and helps drive the transition to a low-carbon economy and increase social values through investment and asset management, thus laying the foundation for an innovative ESG financial market.

Entering into advanced ESG stage, Mirae Asset Securities will once again open a new chapter in the history of finance, recognizing its role in the capital market and pioneering a sustainable future through investment and asset management.

³⁾ **Mirae Asset Financial Group’s vision:** As a global financial group, we enable successful asset management and make a comfortable retirement possible for our customers.

⁴⁾ **Mirae Asset Financial Group’s management philosophy:** We value our people and embrace the future with an open mind

(2) 2025 Sustainable Finance Goal

Mirae Asset Securities actively discloses information on sustainable finance generated from 1) capital investments, 2) underwriting/advisory, 3) fixed income, and 4) WM products to external stakeholders. Mirae Asset Securities aims to achieve sustainable finance of KRW45 trillion in four key business areas by 2025.

1) ESG capital investments

- Investment capital with the use of proceeds that is consistent with the ESG objectives as specified under the relevant taxonomy⁵⁾
 - Invested assets or investee companies that have themes or business purposes consistent with ESG objectives as specified under the relevant taxonomy, with the taxonomy-compliant sales mix exceeding 25% in the preceding fiscal year
 - [Cumulative sum]
-

2) ESG underwriting/advisory, financing

- Underwriting/advisory and financing services with the use of proceeds that is consistent with ESG objectives as specified under the relevant taxonomy
 - * If the above services are provided simultaneously, the amount will be based on whichever is higher between underwriting/advisory and financing.
 - [Cumulative sum]
-

3) ESG fixed income balance

- Fixed-income assets under management that are aligned with ESG objectives/themes, including green, social, sustainability, socially responsible investing (SRI), sustainability-linked bonds (SLB), and etc.
 - [Outstanding balance]
-

4) ESG WM products balance

- ESG WM products that are aligned with ESG objectives/themes, including green, social, sustainability, and SRI
 - [Outstanding balance]
-

⁵⁾ The relevant taxonomy depends on the location of deals (Korea: K-Taxonomy; overseas: EU Taxonomy).

(3) Three Focus Areas

To achieve its sustainable finance goal of KRW45 trillion by 2025, Mirae Asset Securities has selected the following three focus areas: Governance & Accountability, Climate Engagement, and Inclusive Growth.

1. Governance & Accountability

Mirae Asset Securities will enhance its capability to do business in an accountable, ethical, and transparent manner by solidifying its ESG governance system. In addition, Mirae Asset Securities will proactively disclose and communicate its progress in ESG management and establish a framework for building trust with clients, shareholders, and other stakeholders.

2. Climate Engagement

Recognizing the gravity of climate change, Mirae Asset Securities will faithfully provide investment and financial advisory services to support Korea's successful transition to a net-zero economy by 2050.

3. Inclusive Growth

Mirae Asset Securities will actively provide investment and advisory services in a manner that supports underprivileged communities, SMEs, and start-ups and contributes to job creation. It will faithfully fulfill its social role in promoting inclusive growth by educating the financially underserved and making financial services more accessible. At the same time, Mirae Asset Securities will take the initiative in creating a corporate culture of sustainability to better society and the environment.

(4) Double Materiality Test

Mirae Asset Securities conducts its annual double materiality test to identify key sustainable management issues that can influence long term management performance, business operations, and brand reputation. Ten key issues for which strategies, goals, performance and evaluation are to be disclosed in the integrated report, are selected in consideration of the company's business relevance and direct and indirect stake holder impact.

○ Double Materiality Test Process

| | | |
|---|---|---|
| Step 1. Identifying and pooling issues | Identifying internal issues | <ul style="list-style-type: none"> - Analysis of existing sustainable management issues and collection of internal issues - Analysis of possible amendments to be made for ESG policy framework, Environment Social Policy statement and Sustainable Finance taxonomy |
| | Identifying external issues | <ul style="list-style-type: none"> - Analysis of major issues and activities of domestic and oversea peers within 'Financial services & Diversified Financials' sector - Examination of global ESG trend and new issues raised by global information disclosure indexes (GRI, SASB, DJSI, ISO26001, TCFD) |
| Step 2. Collecting stakeholder opinions | Formulating survey questionnaire | <ul style="list-style-type: none"> - Categorizing the major issues by 'economy', 'people', and 'environment' - Formulating questionnaire |
| | Conducting survey | <ul style="list-style-type: none"> - Conducting a survey of key stakeholders such as employees, clients, partners and collaborators, investors and shareholders and NGOs to determine the level and impact of Mirae Asset Securities' sustainable management |
| Step 3. Conducting double materiality test | Business Relevance | <ul style="list-style-type: none"> - Utilizing Mirae Asset Securities internal employees survey results - Aggregation of major ESG issues from the peers within 'financial services & diversified financials' sector |
| | Stakeholder Impact | <ul style="list-style-type: none"> - Utilizing survey results of the major stakeholders such as client, partners and collaborators, shareholders and investors, and NGOs - Big data analysis of news articles exposed in the media over the past year |
| Step 4. Scoring major issues | Applying weighted ratio | <ul style="list-style-type: none"> - Weighted by performing evaluation on the level of impact in terms of profit, operation and reputation |
| | Deriving key issues | <ul style="list-style-type: none"> - Distinguishing between major issues prioritized by the level of importance and those which the company should continuously manage - Obtaining authorization from the decision-making body at the highest level |

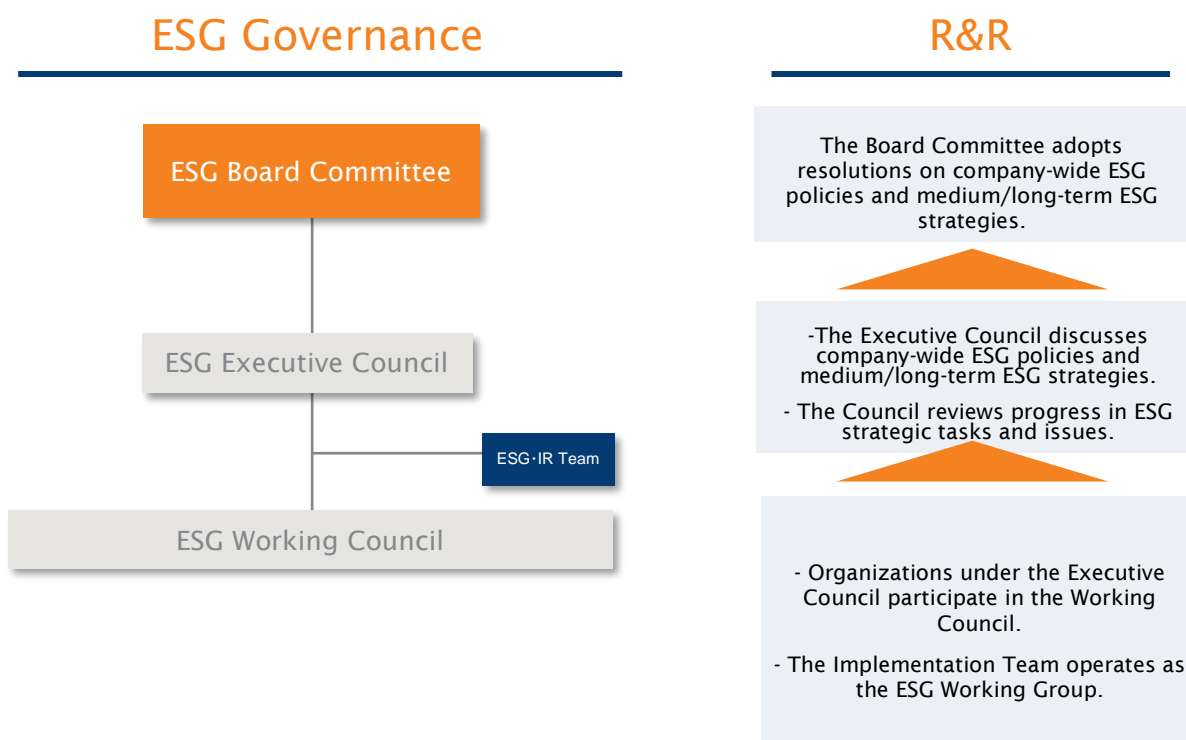

(5) Strategic Priorities and Detailed Tasks

| Focus Areas | Strategic Priorities | Detailed Tasks |
|-----------------------------|--|---|
| Governance & Accountability | Foster more accountable/ethical management | ~ 2026 <ul style="list-style-type: none"> - Maintain total shareholder return of over 35% - Strengthen communications regarding corporate value enhancement |
| | Enhance management transparency | ~ 2026 <ul style="list-style-type: none"> - Proactively address ESG disclosure requirements - Strengthen verification of ESG information and data |
| | Enhance risk management & identify opportunities | ~ 2026 <ul style="list-style-type: none"> - Implement Environment/Social Policy (ESP) Statement - Lead financial export |
| Climate Engagement | Expand green and low-carbon finance | ~ 2025 <ul style="list-style-type: none"> - Expand investments and advisory services in areas consistent with the K-Taxonomy's green economic activities |
| | Convert to renewable energy | ~ 2025 <ul style="list-style-type: none"> - Achieve 100% renewable electricity (RE100) for all offices and headquarter buildings - Lead financial arrangement(underwriting) for renewable energy |
| | Manage carbon emissions from investment assets | ~ 2030 <ul style="list-style-type: none"> - Reduce, by 42%, internal emissions (Scope 1, Scope 2) - Reduce financed emissions⁶ based on SBTs (science-based targets) |
| Inclusive Growth | Expand inclusive finance | ~ 2025 <ul style="list-style-type: none"> - Expand investment and advisory services for SMEs and innovative businesses - Expand investment and advisory services related to social infrastructure |
| | Improve access to financial services | ~ 2025 <ul style="list-style-type: none"> - Expand financial literacy education by partnering with K-12 schools and military bases - Address the digital finance gap in underprivileged communities |
| | Expand ESG campaigns | ~ 2025 <ul style="list-style-type: none"> - Expand joint projects with the Mirae Asset Park Hyeon Joo Foundation - Enhance ESG corporate culture through employee engagement |

⁶⁾ Financed emissions are Scope 3 emissions from investment asset portfolios.

5. ESG Management Governance

- We have established a four-level governance system encompassing the ESG Board Committee, the ESG Executive Council, the ESG Working Council, and the ESG Implementation Team.

- Key function by organization

| Organization | Key Functions |
|-------------------------|---|
| ESG Board Committee | <ul style="list-style-type: none"> ▪ Adopts resolutions on company-wide ESG policies and strategies ▪ Decides other core ESG tasks and key contentious issues |
| ESG Executive Council | <ul style="list-style-type: none"> ▪ Discusses company-wide ESG policies and strategies ▪ Monitors progress in implementation of ESG strategies/issues ▪ Reviews other core ESG tasks and key contentious issues |
| ESG Working Council | <ul style="list-style-type: none"> ▪ Implements strategic tasks by segment ▪ Establishes medium/long-term ESG strategies and targets by segment |
| ESG Implementation Team | <ul style="list-style-type: none"> ▪ Establishes and supports company-wide ESG policies and strategies ▪ Establishes ESG strategic tasks by segment and discusses/reviews implementation plans ▪ Responds to ESG evaluations in Korea and abroad and publicly discloses ESG performance (e.g., publication of Integrated Report) ▪ Joins global initiatives and monitors implementation thereof |
